*A Great Way to Get Involved in 2009!*

## *“Adopt a Computer”*

The upcoming school term of 2009-2010 is promising to be the biggest and most successful one of the three year Digital Harmony project at Nims Middle School with an anticipated 240 6th grade students.

You can help us meet our goal of continuing to provide computers to these students at Nims by “adopting” one or more students and making a donation for the purchase of their DH computer and program costs.

The cost of the program is \$700 for each student and our goal is \$168,000. Please help one or more students by making a donation to Digital Harmony today!
